AMAN GAUTAM

Transportation Engineer | Sustainable Mobility | Electric Mobility | Urban Infrastructure

Kathmandu, Nepal | +977 9843517576 | 97amangautam@gmail.com
linkedin.com/in/cerealchilleraman | Nepal Engineering Council Reg. No. 25765 (Civil "A")

PROFESSIONAL SUMMARY

Master of Engineering in Transportation Engineering from the Asian Institute of Technology and experience across World Bank-, ADB-, and GIZ-supported infrastructure and mobility programs in Nepal, Tanzania, and India. Current Technical Advisor with GIZ Nepal working on electric public transport, charging infrastructure, e-ticketing, technical standards, procurement, and coordination with government, donor agencies and private-sector stakeholders. Previous experience includes urban road and drainage planning and design, transport demand assessment, feasibility studies, hydrological modelling, project preparation and supervision, and IPCC-based greenhouse gas emissions analysis.

CORE EXPERTISE

Urban Mobility • Electric Mobility and EV Charging • Transport Decarbonization • Public Transport and E-Ticketing • Transport Demand Analysis • Urban Roads and Drainage • Project Preparation and Supervision • Procurement and Technical Specifications • GHG Emissions Analysis • Government and Stakeholder Coordination

PROFESSIONAL EXPERIENCE

Technical Advisor **Feb 2026 – Present**
GIZ Nepal *Kathmandu, Nepal*
Sustainable Electric Transport for Nepal (SET4NPL), Mitigation Action Facility

- Provide technical advisory support for Nepal's transition to electric public transport, covering vehicle standards, charging infrastructure, e-ticketing, transport-sector data, and enabling institutional systems.
- Lead technical inputs to procurement of public EV charging infrastructure, including specifications, implementation requirements, bidder clarifications, technical evaluation inputs, and coordination with implementing stakeholders.
- Advise the Nepal Electricity Authority on development of a centralized Charging Management System and contribute to charging-station guidelines and government support mechanisms for electric mobility.
- Coordinate procurement and piloting of e-ticketing systems with public transport operators, payment service providers, and government counterparts.
- Coordinate technical dialogue with the Ministry of Physical Infrastructure and Transport, Department of Transport Management, Nepal Electricity Authority, financial institutions, transport operators, and development partners on electric-mobility deployment and institutional readiness.
- Contribute technical analysis and implementation planning related to transport decarbonization, electric vehicle deployment, infrastructure readiness, and public transport modernization.

Transportation Engineer and Project Coordinator **Oct 2025 – Feb 2026**
Building Design Authority Pvt. Ltd. *Sikkim, India*
PMDSC – ADB-financed Sikkim Integrated Urban Development Project

- Coordinated multidisciplinary urban infrastructure packages covering roads, water and wastewater facilities, utilities, municipal buildings, and EV charging components.
- Supported project planning, technical reviews, scheduling, documentation, and multidisciplinary design coordination in accordance with ADB project requirements.

Road and Drainage Engineer (Key Expert) **Feb 2025 – Jan 2026**
BOTEK Bosphorus Technical Consulting Corp. JV Building Design Authority *Tanzania*
World Bank-financed TACTIC Programme, Tier 3 – Zones 2 and 3

- Led planning and design inputs for approximately 45 km of urban roads and drainage improvements across six local government authorities, integrating road geometry, drainage, hydrology, constructability, and cost considerations.
- Conducted feasibility studies, hydrological modelling, drainage assessments, alignment reviews, quality control, and cost-estimation inputs in coordination with TARURA engineers and local counterparts.
- Assessed public transport demand and service requirements, including bus bays and service headways, and facilitated stakeholder and capacity-building engagements with local government counterparts.

Road and Drainage Engineer (Non-Key Expert) **Dec 2023 – Jan 2025**
BOTEK JV Building Design Authority *Tanzania*
World Bank-financed TACTIC Programme, Tier 2 – Zone 4

- Designed approximately 32 km of urban roads and drainage, integrating geometric design, drainage, utilities, constructability, quantities, and cost considerations.

- Prepared and reviewed feasibility inputs, bills of quantities, quantity take-offs, and bidding documentation in coordination with quantity surveyors and multidisciplinary design teams.
- Managed site investigations, geotechnical coordination, field data collection, and stakeholder communication; contributed to demand assessments for bus terminals and urban transport components.
- Coordinated multidisciplinary inputs to Environmental and Social Management Plan documentation for municipal solid-waste infrastructure.

Highway Engineer **Jul 2023 – Nov 2023**
Building Design Authority Pvt. Ltd. *Kathmandu, Nepal*

- Prepared geometric and pavement designs, road alignments, and interchange concepts for highway and airport infrastructure assignments, coordinating drawings and multidisciplinary technical reviews.
- Coordinated technical inputs and supporting documentation for Initial Environmental Examination work for the Nijgadh International Airport project.

Research Assistant **Aug 2021 – Jun 2023**
Asian Institute of Technology *Thailand*

- Conducted IPCC-based bottom-up greenhouse gas accounting and quantitative analysis of transport-related emissions to support institutional sustainability assessment and reporting.
- Analysed transport and emissions datasets using R, Python, and Excel, translating quantitative findings into technical outputs for research and sustainability applications.

Civil Engineer – Construction Supervision **Aug 2020 – Aug 2021**
Building Design Authority Pvt. Ltd. *Sudurpashchim Province, Nepal*
Regional Urban Development Project

- Supervised municipal infrastructure works, including quantity measurement, quality checks, contractor documentation, and verification of compliance with drawings, specifications, and construction schedules.
- Supported coordination among contractors, consultants, and project stakeholders on construction progress, quality control, and site safety.

EDUCATION

Master of Engineering, Transportation Engineering 2023
Asian Institute of Technology (AIT), Thailand

Bachelor of Engineering, Civil Engineering 2020
Visvesvaraya Technological University, India | First Class with Distinction

TECHNICAL AND ANALYTICAL SKILLS

Transport Planning and Mobility: Urban mobility; public transport planning; transport demand assessment; PTV Vissim; road alignment and geometric design; pavement design; road safety assessment.

Electric Mobility and Decarbonization: EV charging infrastructure; charging management systems; e-ticketing; electric public transport; vehicle technical specifications; IPCC bottom-up GHG estimation; transport emissions analysis.

Infrastructure and Project Delivery: Feasibility studies; hydrological modelling; drainage assessment; technical specifications; BOQs; bidding documents; procurement support; construction supervision; quality control.

Data and Engineering Tools: Python; R; Excel; AutoCAD; SW Road; MATLAB.

SELECTED PROFESSIONAL DEVELOPMENT

- Integrated Urban Transport Planning – World Bank Group
- Infrastructure Asset Management for Sustainable Development – UN DESA and UNITAR
- Disaster Resilience of Infrastructure Systems: Quantification and Economic Valuation – ASCE
- Road Safety and Signage Audit: Proactive Roadway Safety – ASCE

ADDITIONAL INFORMATION

Languages: Nepali (native); English (full professional proficiency); Hindi (professional working proficiency).

Professional Memberships: American Society of Civil Engineers; American Concrete Institute.
